# ABOUT B3A

## BODYGUARD ACTION ART ACADEMY

### WHERE PROTECTION MEETS PERFORMANCE

At the intersection of discipline, danger, and dramatic storytelling lies B3A International Academy a pioneering institution where tactical excellence meets cinematic artistry. Established by Dr. H. Ebrahimianpour, a globally respected security strategist and cinematic action mentor, B3A is not just a training center it is a global platform designed to shape the next generation of bodyguards, stunt professionals, and action performers. With certified programs, military-grade simulations, and access to international productions, we prepare our students to not only protect lives in high-risk environments but also to perform powerfully in front of the camera. Whether you're drawn to real-world security missions or the world of high-impact film choreography, B3A is where your journey begins with precision, presence, and purpose.

### FOUNDER'S MESSAGE

#### A VISION FORGED IN DISCIPLINE AND CREATIVITY

"In my journey across the worlds of elite protection and cinematic action, one truth became clear:

Excellence is not taught it is forged. I founded B3A Academy with a mission to go beyond traditional training. We do not produce ordinary students. We build leaders, guardians, and performers who thrive in chaos, adapt to risk, and elevate every mission whether on a real-life detail or a global film set. In today's world, physical strength is not enough. Intelligence, precision, and adaptability define the modern protector. And in cinema, authenticity and control define a true action performer. B3A was born to unite these two worlds. If you carry a passion for courage, discipline, and creative execution I invite you to train with us.

This is not a course. This is a transformation."
